Hotel Kronjylland – Randers

Curtains and bed skirts

Hotel Kronjylland is a completely renovated hotel that wanted indoor sunshade and/or curtains in all hotel rooms, restaurant and conference room. They also wanted a supplier that could make bed skirts. Therefore, Hotel Kronjylland entered a cooperation with Gardin Lis while our business area included all their wishes.

The solution to Hotel Kronjylland is based on the following:

- Cozy and exclusive boutique style
- Good connection between furniture, colors and curtains
- Classic design

The solution

Through dialogues with Hotel Kronjylland we found a solution that could highlight the hotel's cozy and exclusive style, where dimmed soil colors and especially gray, black and white shades are a continuously element.

Gardin Lis has made fabric curtains and bed skirts for their hotel rooms, and roman blinds for both restaurant and conference room. The color selection for both fabric curtains, roman blinds and bed skirts is in line with the warm and cozy boutique style, creating a professional and relaxed atmosphere.

The choice of materials and colors are made based on the hotel's new style and the specific wishes that the hotel had from the start.

HOTEL KRONJYLLAND

The Mayor - Aarhus

Roman blinds and curtains

The Mayor is a newly renovated hotel that wanted help to shield of the breakfast buffet area as well as a curtain or sunshade solution for the restaurant. In this regard, The Mayor entered an agreement with Gardin Lis, and we were pleased to help with both solutions.

Gardin Lis has previously provided curtains, bed spreads and pillows for all hotel rooms at The Mayor.

The solution to The Mayor is based on the following:

- Simple and modern style
- Exclusive shielding for breakfast buffet
- Curtains can be used as a room divider

The solution

Based on The Mayor's wishes and needs, we found a solution that highlights the hotel's simple and modern style with subdued and neutral tones. Black, beige, white and gray was the main colors in the decor.

Gardin Lis has made fabric curtains and roman blinds for the restaurant. We made two fabric curtains. One, that can be used for shielding the breakfast buffet and one that can be used as a room divider. The curtains and roman blinds are made in an exclusive look in line with The Mayor's simple and modern style.

Hotel Ritz - Aarhus

Curtains, indoor sunshade and awning

Hotel Ritz was renovated in 2014 and in that regard, the hotel requested help with indoor sunshade and / or curtains for hotel rooms and reception. The hotel also wanted a supplier who could provide an awning.

In this connection, Hotel Ritz entered a cooperation with us, while we are able to help with both curtains, indoor sunshade and awnings.

The solution to Hotel Ritz is based on the following:

- Combine the traditional with the modern design
- Bright and stylish Art Deco style
- Good connection between furniture, colors and curtains

The solution

Through dialogue with Hotel Ritz, we found a solution that combines the traditional look with the modern design. Gardin Lis has made blackout and transparent curtains to hotel rooms focusing on bright and stylish Art Deco style. For the reception, the solution was a blue Duette® Shades that suited reception atmosphere. In front of the hotel we installed a black awning with Hotel Ritz' name on it, in order to create an eye catcher.

The solution creates a good connection between the hotel's interior in bright colors, glass and beautiful styled furniture.
